

Mexico Pacific Limited LLC Hires Sarah Bairstow to Lead Commercial Activities as CCO

Mexico Pacific Limited, LLC (the “Company”, or “MPL”), the owner and developer of a liquefied natural gas (LNG) project on the Gulf of California in Mexico, announced today that Sarah Bairstow has joined as the CCO of MPL.

HOUSTON (PRWEB) January 17, 2019

Ms Bairstow joins MPL from ASX listed Santos Limited where she held the position of Head of LNG Marketing (Commercial) for the US\$18.5b Santos Gladstone LNG (GLNG) Project. Ms Bairstow brings end-to-end commercial LNG project development and marketing experience to MPL, having successfully marketed and commercially delivered LNG projects from concept through commercial operations. Prior to Santos, Ms Bairstow was an energy projects lawyer with the global law firm Ashurst LLP. Ms Bairstow holds a Bachelor of Laws (Hons) and a Bachelor of International Business from Griffith University.

The appointment begins an eventful 2019 for MPL as permitting activities wrap-up and focus of the LNG project shifts to progressing technical efforts and commercial relationships. “As we continue to ramp up our project to commercialize phase 1 of the project and bring it towards FID, we are excited to have Sarah join, bringing a wealth of experience and skill to our team.” said President of MPL, Josh Loftus. “Sarah’s understanding of our industry, relationships in our target market of Asia, and overall leadership skills will help drive value for our customers and our investors.”

“I am excited to be joining such an innovative company and LNG project, using US shale gas to provide a competitive alternative to Gulf of Mexico LNG with material shipping savings into the Pacific Basin.” said Ms Bairstow. “I look forward to building upon the positive momentum and support the project has enjoyed to date to reach a successful FID.”

About Mexico Pacific Limited LLC

MPL is a Pacific Coast North American liquefaction facility that has substantial cost and logistical advantages versus other US facilities serving the Pacific Basin. Based at Puerto Libertad in the state of Sonora, Mexico, MPL has a deep-water port and is interconnected with the US shale gas grid by multiple natural gas pipelines, which are already in service, to bring natural gas to the site. The Company is permitted for up to 12 MTPA of LNG and targets the initial construction of 2 to 4 MTPA using modular LNG technology. MPL is a joint venture of DKRW Energy Sonora Holdings, LLC and AECOM Capital Private Infrastructure. For more information on MPL please visit <http://www.mexicopacificlimited.com>.
